OUR FUTURE IS GREEN

With over thirty years in business, Print Tech's growth into New Jersey's largest quick commercial printer and fulfillment center has been fueled by our talent, our technology, and our willingness to meet the needs of our customers.

This success has allowed us to pursue a pro-active "green" strategy culminating in our FSC (Forest Stewardship Council) Certification in 2008 that allows us to offer papers that have been tracked from responsibly managed forests. Additionally, the use of vegetable-based inks and other recycled papers further reduce our footprint on the environment.

Our forward thinking approach, the ability to deliver information on multiple channels, and the wise use of resources is why Print Tech is "The Future of Printing."

Contact us for information about our certified products.

TRADE SHOW DISPLAYS

Our design team creates stunning graphics that will make your displays stand out. With fast turnaround time, you get great design and professional impact in a hurry!

BANNERS & POSTERS

Big, bright banners are perfect for high impact promotions at low cost. These great attention-getters are especially well-suited for short term use, annual event re-use, and outdoor advertising in high traffic areas.

Our top quality banners are durable in any weather conditions and come completely finished with grommets and ties for easy hanging.

We specialize in full-color, customized, affordable posters that will enhance your seminar, promote your networking event or add the finishing touches to your interior.

ARCHITECTURAL SIGNAGE

Instantly achieve a more professional appearance with custom architectural graphics for all interior and exterior signs. Updating signs and building directories is easy and an inexpensive way to look professional.

REAL ESTATE & SITE SIGNS

Connect with the home buyer by personalizing your real estate signs with the sales associate's name, photo and phone number. Get results immediately!

Site signs are an easy, yet powerful, way to promote your business and show off your latest projects.

VEHICLE & MAGNETIC SIGNS

Bold, durable vinyl lettering can turn your car or truck into a traveling advertisement.

With Sign Tech's hi-tech equipment, customers have access to large-format, short-run printing to create posters, banners, murals, presentations, displays, decals, backlit signs and more.
